

ENVIRONMENTAL POLICY

At 8build we are united in our commitment to minimise the impact our business is having on the environment.

To achieve this we shall:

- Comply with all of our obligations including relevant environmental legislation and regulations
- Identify and evaluate the environmental aspects risks resulting from our business activities and implement measures and undertake improvement actions to manage and control them.
- Provide the appropriate leadership
- Ensure the involvement of our people and provide them with specific training
- Use our Environmental Management system as a framework to set clear targets and environmental objectives within our business, planning and committing to continual improvement to enhance environmental performance
- Promote and support industry best practice to prevent pollution and recycle construction waste
- Ensure our key supply chain demonstrate compliance and use sustainable, resourced products where possible
- Regularly review this policy to ensure that it always is relevant to our business activities.
- Have a documented Environmental Management System which is maintained

Our Environmental policy is communicated within the company and displayed on notice boards at all of our projects; it will also be made available to any interested party. It can also be found on our website.

Our Environmental Management System complies with the requirements of ISO 14001:2015 and the statutory and regulatory requirements.
